

THE RIGHT PERSON, IN THE RIGHT PLACE, AT COST EFFECTIVE

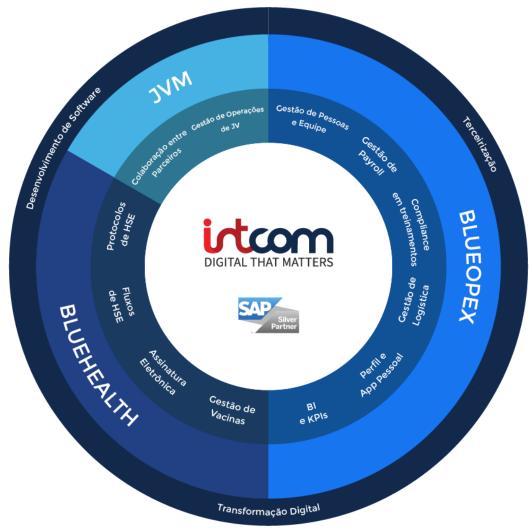

ABOUT US

Innovation Journey

A global B2B technology company focused on disruptive innovations applicable to several industry sectors.

We are a reference in innovation, including highlighting by overcoming global challenges proposed by large companies, customer quotes in publications and studies of interest.

HR TECH

BlueOpex was created for companies that operate in complex operations generating several assets or contracts with updated information in real time!

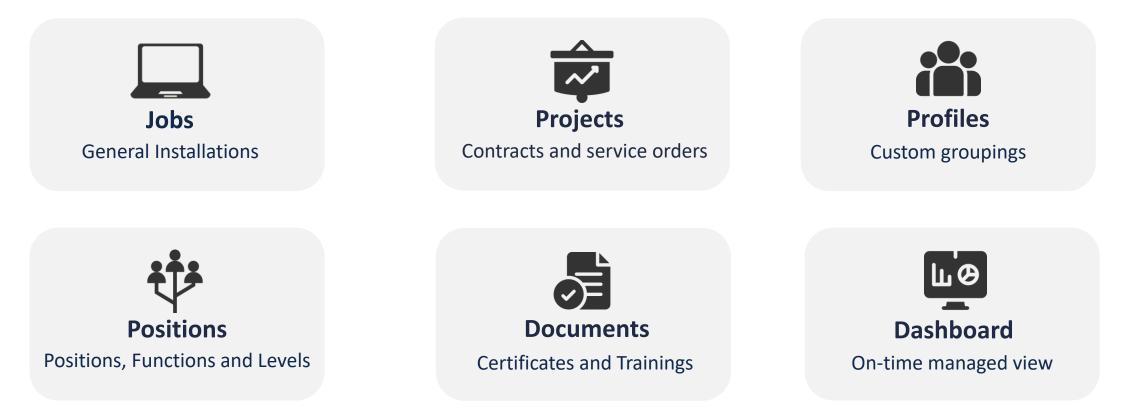

No matter how many assets are managed or how many places your employees work, you can register everything in BlueOpex, your operations requirements and start planning shifts in minutes.

Solving the productivity management of teams working at varying scales, compliance management and critical documents.

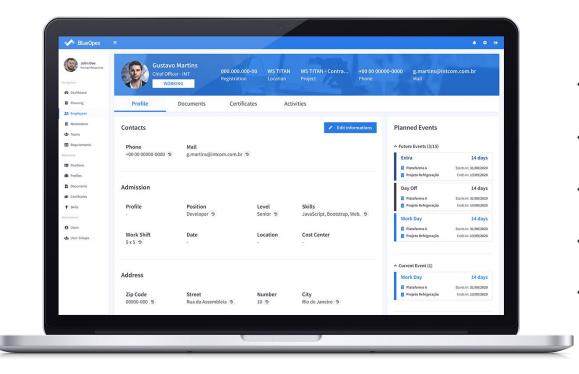

BlueOpex allows all events that impact planning to be recorded and visualized in a single timeline enabling the identification of improvement points

DOCUMENTS STATUS AND CERTIFICATES

- ✓ Real time monitoring
- ✓ Validity check in advance
- ✓ Reports prepared for audits
- Suggestion of collaborators able to perform the activity

RISK MITIGATION IN INSPECTION AND AUDITS

BlueOpex has flexibility in creating customizable report fields, facilitating the traceability of information needed in inspections, and audits with access if necessary.
